

LinkedIn Recommendations for Michael Eskin

“Michael is a great addition to any engineering team. He always knows more about a topic than most people, yet is inquisitive to find out what others know too. He loves to educate co-workers about his area of expertise, and loves to evangelize ideas for how to improve a design or strategy. He is a hard worker, an expert programmer, and definitely a big win for your team.” October 13, 2011

Havard Scott, *Design Manager and Digital Designer, Conexant*
worked directly with Michael at Conexant Systems

“I had the opportunity to work with Michael during the emerging market for accelerated multimedia chips and 3D graphics. Michael is very detail oriented and can be counted on to go the extra distance to understand not just what's necessary to complete his work, but to understand the broader domain that his work operates in. I would hire Michael again, without hesitation.” October 10, 2011

Randy Salo, *Group Engineering Manager, Brooktree / Conexant*
managed Michael at Conexant Systems

“Michael is enthusiastic and thrives on tackling difficult technical challenges. He is technically competent and is capable of solving tough problems with complex designs. Michael would be a great addition to systems, firmware or software engineering teams.” October 9, 2011

Tee Lim, *Sr. Product Line Manager, Conexant*
worked directly with Michael at Conexant Systems

“Michael has the amazing ability to monitor industry developments, research a technology, understand it's market implications, and quickly develop real-world proof of concept applications and end products that are successful in the market. His in-depth knowledge, common sense approach, and positive attitude are refreshing and appreciated by his peers and customers alike.

Over the past 11 years that I have traveled and worked with Michael, I have seen not only a successful professional career but also a rich and balanced personal life.

I absolutely recommend Michael, without reservation, to any forward looking company.” October 6, 2011

Bruce Broding, *Area Sales Manager, Conexant Systems, Inc.*
worked with Michael at Conexant Systems

“Michael Eskin, the living encyclopedia of anything related to Video!!! I have had the pleasure of working with Michael for more than 6 years. An extremely driven and self motivated individual who loves to work with the bleeding edge of technology. Always experimenting with new ideas, concepts and processes. Michael loves to impart all the knowledge that he gains with his experiments and studies to people around him. I have personally learned a lot, gained a lot of knowledge from him. He will be an invaluable asset to any group or company that he joins.” October 6, 2011

Palash Bandyopadhyay, PMP, Group Lead, Conexant
worked directly with Michael at Conexant Systems

“Michael showed great ability to analyze design and present big software projects. Michael is a very detailed oriented engineer and has the rare combination of understanding leading edge technologies and design them in software.

Michael was instrumental to Conexant's participation in creating the Windows Media Center PC. He will be a great asset to any technology company who is engaged in complex software projects.”
October 6, 2011

Eitan David, Div Director, Audio Systems Engineering, Conexant Systems Inc.
worked with Michael at Conexant Systems

“It was great pleasure working with Michael, Michael is very innovative and inspirational. Thank you for all the trainings you did on Video Technologies, iPhone and Android.” October 5, 2011

Srinivas Katukojwala, Staff Engineer, Conexant
worked indirectly for Michael at Conexant Systems

“Michael is one of the brightest minds I have the pleasure of knowing... He has the extraordinary ability of able to quickly dissect a new technology concept and implement code in a robust way that can be quickly productized. His in depth knowledge and rich experience in drivers, middleware, and applications are vital to the success of many Conexant’s complex industry-leading SoC products.”
October 4, 2011

William Lau, Field Applications Engineer, Conexant Systems, Inc.
worked directly with Michael at Conexant Systems

“I’ve been lucky to tap into Michael Eskin's creativity and productivity for an embedded Linux project using a new chip our company developed. Out of the myriad of ways to use our graphics accelerator in Linux, he was able to review and choose one that fit our product well. He then went on to quickly implement a DirectFB library, again working with a brand new chip, that we have added to and still use. This involved a lot of quick learning and sound judgement and was completely managed by Michael. He also added artistry to the project on the side by developing some of the GUI demonstration applications with the Qt framework. He showed an eye for graphics as well as a sense of solid UI design. I saw later that he had practiced these skills in developing many complex iPhone apps. From what I know of Michael's career, he has shown this ability to jump into new areas and master them for useful applications many times. He would be a great asset to a large variety of projects.” October 4, 2011

Michael Chandler, Director, MFP and Fax Development, Conexant Systems, Inc.
managed Michael indirectly at Conexant Systems

“Michael is one of the most knowledgeable, prolific, and capable software architects/developer that I have had the pleasure to work with. He learns new platforms quickly and produces high quality code in less time than it takes other developers with a similar number of years of experience.” October 4, 2011

Andy Webster, *VP System Engineering, Conexant*
managed Michael at Conexant Systems

“I worked with Michael at Conexant for over 8 years. Michael is an exceptionally detail-oriented software engineer. He easily adapts and masters new technologies, and consistently solves significant engineering problems.” October 3, 2011

Dave Tharp, *Director, Software Engineering, conexant*
managed Michael at Conexant Systems

“Michael has an upbeat, can-do personality. At Conexant, he demonstrated keen knowledge of analog and digital video. His ability to develop middleware & applications for control of Conexant encoders and decoders was important for both GPU partners and overall design win enabling.” October 3, 2011

Chris Wojslaw, *Applications Engineering Manager, Conexant Systems*
worked directly with Michael at Conexant Systems

“Michael is very knowledgeable, sharp, and highly talented engineer. I have worked with Michael for almost 4 years and he is very responsible with unique problem solving skills. Michael's deep understanding for AVStream architecture of Windows and deep understanding video capture/compression hardware and software was very helpful to the company. And he is a very good programmer in C, C++ for drivers, middleware, and applications, as well as Objective C for iPhone/iPad applications. Michael is also an effective instructor and was always willing to train anyone else on any subject he was familiar with. I enjoyed working with Michael and would do so again.” October 3, 2011

Srinivasa Deevi, *Sr. Staff Engineer, Conexant*
worked directly with Michael at Conexant Systems

“I have known Michael since the early 90's since we both worked at Brooktree. Michael is one of the most creative and talented technology professionals I have had the pleasure to work with. I have seen him pick up new technology fields and in an amazingly quick space of time master them and find new ways of implementing them or improving upon them. I have worked with Michael in areas spanning RAMDACs, Graphics Processors, Video Scaler/DACs, Video decoders, Digital Broadcast Demod ICs, Microsoft drivers, Broadband communications and many more. Michael is a superb hardware and software engineer and is a very well-rounded individual with extensive musical talents.” October 3, 2011

Tim Yates, *Technical Marketing Manager/Product Manager, Conexant Systems*
worked directly with Michael at Conexant Systems

“I have been working along Michael for the past 6 years. I found him to consistently pleasant to work with. Michael brings with him a zeal of enthusiasm and his positive attitude is contagious. More often than not, very high critical issues from customers that originated from my applications group always involved Michael as a part of solution providers. Apart from solving critical customer issues Michael was

also involved in most of the future product definitions of the Convergence Video Group.

As very senior person in our division, Michael was the go-to guy for clarifications and doubts. I have been to him countless number of times for clarifications and every time I would get a chalkboard class on the issue, which I am always grateful for.

As a person, what Michael does have is:

- . A very positive attitude
- . A very helping tendency
- . Always wanting to learn from others as much as he teaches to others.

Technically, Michael is very strong in Drivers, system level software for Video and Graphics, Overall system design and understanding any new standards and deciphering them to the people like me. It was a great privilege for me to work with Michael. I strongly feel that Michael will be a great asset to the company.

Natarajan Dakshinamurthy, *Sr.Staff Product Applications Engineer, Conexant*
worked indirectly for Michael at Conexant Systems

“Michael is one of the most competent system architects I've had the pleasure to work with. I would recommend anyone include Michael on their development team.” October 2, 2011

Ralph Sweitzer, *Software Consultant, Motorola*
worked directly with Michael at Conexant Systems

“Working with Michael was exciting whether we were working on an industry-first product or an evolutionary solution. Michael of course is a super sw ace, that goes without saying; but it is his planning, insight, tenacious debug abilities and dedication to customers that puts him head and shoulders above the crowd and creates a great end product.” October 2, 2011

Tim Wilhelm, *Marketing Director, Convergence Video, Conexant Systems*
worked directly with Michael at Conexant Systems

“Michael is an excellent and highly experienced engineer who knows both the hardware and the driver software in great detail. He is particularly knowledgeable on all things video. I found him to always be very professional and helpful in our intercompany business dealings. He is a super guy.” October 2, 2011

Dave Marsh, *Lead Program Manager for Video in Windows, Microsoft*
was with another company when working with Michael at Conexant Systems

“Michael was absolutely a key contributor to both our PCTV, video surveillance, and embedded Linux graphics system software design and development efforts. His understanding of video standards and

complete system solutions from VLSI device to platform multimedia streaming architectures was invaluable both in the development and support of current products as well as the principal driver of requirements and system architecture for future devices. He was indeed my go-to-guy when I planned new products. I highly recommend him as a systems architect and software developer.” October 2, 2011

Nori Nobukawa, *Senior Marketing Manager, Conexant*
worked with Michael at Conexant Systems

“During my time at Brooktree, Rockwell and Conexant, I worked with Michael on various PC video software projects. The experience was both professionally and personally rewarding - Michael is not only an excellent software engineer but also a very easy person to get along with. I would wholeheartedly recommend him and would be delighted to work with him again myself.” October 1, 2011

Dave Wilson, *Principal Software Engineer, Conexant Systems Inc.*
worked with Michael at Conexant Systems

“I had the privilege of working with Michael at Brooktree, Rockwell, and Conexant on the projects to develop video/audio capture devices for the last 14 years. His technical knowledge of device driver is excellence especially with the Windows kernel. He has a broad knowledge in the video technology. He was good in a role in identifying and prototyping a new technology for eventual inclusion into new products.

He is considered a talent engineer in our software group. He would be a great asset to any organization.” October 1, 2011

Quang Trang, *Principal Software Engineer, Conexant Systems, Inc.*
worked directly with Michael at Conexant Systems

“Michael is one of those rare software engineers, whose abilities outstrips the average engineer by orders of magnitude. He was a star performer for my company and I would not hesitate to recommend him to any employer.” October 1, 2011

Paul Stannard, *CEO, Megahaus Corp.*
managed Michael at Megahaus, Corp.

“I’ve known Michael for 19 of the 22 years we worked together at Conexant, Rockwell, and Brooktree. He is not only a star in his field, but truly in industry mover and changer. I have watched as he directly influenced Microsoft and others, making all the right connections as necessary. His hobbies keep him engaged in many areas. He is truly one of the most gifted, imaginative, and well rounded people I have had the pleasure to work with. He is always generously helping others around him in many ways, making him the kind of key player every company needs to have.” October 1, 2011

Robert Simpson, *Senior Applications Engineer, Conexant*
worked indirectly for Michael at Conexant Systems
